

## **TECHNICAL SERVICE BULLETIN # 5**

<b>Product:</b>	<b>Fabius GS</b>	
<b>Date:</b>	<b>February 25, 2003</b>	
<b>Re:</b>	<b>Recall - Phase 2: APL Valve Crater Replacement</b>	
<b>Reference Doc:</b>	<b>SP00256 – APL Valve Crater Replacement on COSY II</b>	
<b>Reason/Rational:</b>	<b>Eliminate Possible APL Valve Crater Leaks</b>	
<b>Solution/Procedure:</b>	<b>Install new APL valve crater assembly via SP00256 on current Fabius GS installed base units. Complete the Return Form attached to SP00256 and return to DMI within 7 days of account completion.</b>	
<b>Devices affected:</b>	10001,10002 10004 thru 10448 10450 thru 10631 10633 thru 10645 10647 thru 10699 10701 thru 10706 10708 thru 11367 11370	11372 thru 11377 11379 thru 11385 11388,11389,11396 11398, 11403,11404 11407 thru 11430 11432, 11434 thru 11468 11471 thru 11534 11540 thru 11549 11552 & 11553
<b>Timing/When:</b>	<b>This is the permanent solution to the APL valve crater oxidation. Immediate action is required to prevent breathing system leaks associated to crater valve oxidation. Complete this action ASAP, but no later than 6-months from date of this TSB.</b>	
<b>Additional Info:</b>	<b>Tools Required:</b>	
	<b>1 - Wrench-Spanner Insert/Extract – P/N 4118165 1 - Scalpel – P/N 4118169</b>	

**Cost:** **Valve crater kits come at no charge to the customer.**  
**Labor – Warranty**
